Standard licence conditions attached to nuclear site licences

Licence Condition 36: Organisational capability

1. The licensee shall provide and maintain adequate financial and human resources to ensure the safe operation of the licensed site.
2. Without prejudice to the requirements of paragraph 1, the licensee shall make and implement adequate arrangements to control any change to its organisational structure or resources which may affect safety.
3. The licensee shall submit to ONR for approval such part or parts of the aforesaid arrangements as ONR may specify.
4. The licensee shall ensure that once approved no alteration or amendment is made to the approved arrangements unless ONR has approved such alteration or amendment.
5. The aforesaid arrangements shall provide for the classification of changes to the organisational structure or resources according to their safety significance. The arrangements shall include a requirement for the provision of adequate documentation to justify the safety of any proposed change and shall where appropriate provide for the submission of such documentation to ONR.
6. The licensee shall if so directed by ONR halt the change to its organisational structure or resources and the licensee shall not recommence such change without the consent of ONR.
